# BUILD YOUR NEW SUPERIOR HOME

# FASTER. STRONGER. SUPERIOR.

## FROM THE GROUND UP

### BUILD YEAR-ROUND

Superior Walls increase the value of today's new homes while increasing precision, strength, and speed. Discover why today's smart home buyers and builders demand Superior Walls.

**Safer.** Superior Walls wall systems introduce the strength and energy efficiency of a Superior Walls foundation to your entire home – utilizing ground-breaking Superior Walls innovations and building processes.

**Stronger.** Superior Walls precast concrete wall panels are constructed for use below or above grade. They are ideal for any residential or light-commercial construction. Superior Walls AG Systems are designed to be used in conjunction with our renowned foundation panels and stacked to create multiple stories as a part of your complete wall system building solution.

**Faster.** Conventional wall construction utilizing old-style block and wood framing can take weeks. Your Superior Walls system is typically installed in just hours or days. Superior Walls panels are pre-engineered and custom manufactured off-site with factory precision, then delivered directly to your jobsite for installation exactly on time.

**Energy Efficient.** Your new Superior Walls home features the strength of steel reinforced concrete construction. Superior Walls AG panels assure quiet living comfort and peace of mind in any weather conditions – while providing superior energy efficiency.

**Superior.** Experience the comfort and security only Superior Walls can provide. Call your certified Superior Walls representative today.

### GREENER. Home Innovation NGBS GREEN PARTNER

Energy-Friendly Superior Walls feature a continuous layer of insulation bonded directly to the concrete, for high energy efficiency and reduced energy costs.

#### ONLY SUPERIOR WALLS FEATURES THESE BENEFITS

Superior Walls panels provide an effective thermal envelope, minimizing energy leakage. Combining pre-engineered built-in insulation and high strength concrete is a great foundation for energy conservation.

#### ENJOY THESE BENEFITS!

- › Superior Custom Design
- › Superior Precision
- › Superior Safety & Security
- › Superior Building Times
